

# Orchid Electronics Contact Microphone System

- One fixed level microphone input on Yellow phono socket
- One variable level microphone input on Blue phono socket
- Variable level microphone input is adjustable via a recessed control - easily accessed, but can be covered with a supplied plastic cap if required
- Master volume control of overall mixed level – tactile soft touch feel knob fitted
- Balanced output on standard 3 pin male XLR – no external DI Box required – use with standard balanced XLR microphone cables
- Phantom powered from the mixing desk – so no batteries needed
- Red LED indicates when power is present
- Belt clip fitted
- Compatible with Microvox type microphones and similar electret types
- High quality components employed for long and reliable service life – Neutrik connectors, Alps studio mixer type controls, low noise active and close tolerance passive components
- Compact size – 110 X 60 X 31mm die cast aluminium box
